| Location: | Customer P.O.: |

#### **Recommended Usage:**

Use as a fixed height low profile light to medium pipe support stand for natural gas piping where vertical adjustment is not an issue. The rubber pipe roller cradles the piping while allowing it the freedom of movement due to thermal expansion. The addition of the optional neoprene pad adhered to the base provides additional protection for the roof during installation. All supports are available with optional MWP Series-  $\frac{1}{2}$  Walk Pad and adhesive for "in the field" application.

#### **Standard Composition:**

Support Base is injection molded 33% Fiberglass Reinforced 6/6 Nylon with highly dispersed carbon black providing weathering resistance and UV stabilization. Assembled with stainless steel hardware; a hard cast rubber roller w/ stainless steel shaft & nylon bushing.

MAPA Products Supports are designed and manufactured in accordance with MSS SP-58-2002 and MSS SP-69-2002.

Refer to MAPA Products "Recommended Installation Guidelines" for standard installation and spacing recommendations.

| Composition:    |  |

### **Optional Accessories:**

Add Suffix "P" .125 neoprene pad.

- MPS-11 Pipe Strap ¾" X 11" Stainless steel pipe strap.
- MWP812 1/2" thick rubber walk pad.

# Warranty:

**ISIMET / MAPA, LLC** will repair or replace any defective parts or workmanship of this product for a period of three years from date of delivery. Rusting that is not detrimental to the integrity of the support is not warranted. Damage caused by incorrect installation, alteration or improper usage is not warranted. Recovery rights shall be limited to the total sum of the amounts paid for the product by the purchaser.

## Limits of Liability:

**ISIMET / MAPA, LLC** liability shall be limited to costs of repair or replacement parts. Supports are not intended for usage other than those expressly described in this brochure. **ISIMET / MAPA, LLC** shall not be liable for damage or injury caused by the improper use of the product.
